Students can use different libraries in the Eszterhazy Karoly University.

The Tittel Pál Library has four campus-libraries (Eger, Gyöngyös, Jászberény and Sárospatak). Their mission is to provide collections and services that support the educational goals of the University.

The National Educational Library and Museum in Budapest is the information centre for educational science, public education and the history of education.

The campus-library of Eger has three collections in the A-building of the University (Lyceum) including teacher education, social sciences, natural sciences, arts and humanities. The portal of the Library offers 7/24 electronic services: online library catalogue and digital repositories.

The international scientific databases (Ebsco, Jstor, Scopus, Science Direct etc.) support education and research as well.
